Special meeting

Warners came in to give proposals for a small subdivision of 4 or less homes adjacent to 797 E Street Kendrick. There were many questions and very few answers. The plans brought in were preliminary and the plans

need to match plot maps. Several things need to be taken into consideration, sewer water connections and fire flow. Meeting with the engineer would be greatly appreciated. A meeting will be scheduled with Scott Becker their engineer, along with Stillman Norton Keller Associates, the city engineer. In attendance at that

meeting will be Jake Lustig, Chris Evans and Mayor to come up with what will be needed to proceed.

WWTP Stillman Norton from Keller Associates gave an update for phase 1 & 2 for the wastewater treatment plant funding. His suggestion is to sign the paperwork for grant money from DEQ. Just because we accept the money does not mean we have to use it. It just means if we get the USDA grant then we would return the DEQ monies.
